

PIERCE COUNTY ARES NET PREAMBLE

REVISED NOVEMBER 2013

< At 1858 hrs. >

May I have your attention, please? The Pierce County Amateur Radio Emergency Service Net will begin in two minutes. [your call sign]

<At 1900 hrs.>

Hello and welcome. This is net control station [your call sign and location] calling the roll for the Pierce County Amateur Radio Emergency Service Net. This net meets every Tuesday at 1900 hrs local time here on the W7AAO 145.370 mhz. repeater, with backup on the W7DK 145.210 mhz. repeater. The purpose of this net is to handle emergency communications traffic, inform members of local and state activities, and provide training in a directed net.

Is there any emergency or priority traffic? [handle as needed]

Are there any emergency powered stations that would like to check in?

Are there any mobile stations that would like to check in?

IDENTIFY

We will now take reports and announcements.

1. State and Section ARES leadership.
2. District Emergency Coordinator, Stan K7DKK
3. Emergency Coordinator / Area Managers
 - A. Peninsula Team.
 - B. Central Pierce County Team.
 - C. East Pierce County Team.
 - D. South Pierce County Team
 - E. LDS Communications Group.
 - F. Digital Team Net
 - G. Roy Area Communications Team.
4. Medical Services Team.
5. National Traffic System.
6. Special Events.

Are there any other stations with reports or announcements?

IDENTIFY

All stations stand by for roll call alphabetically by first letter of suffix. [Call A thru G, H thru M, N thru S, T thru Z]

Are there any late or missed stations? Give your call sign and team.

Are there any visiting stations? Give your call sign and location.

Is there any final business for the net?

Please remember that if you have access to the Internet, you will find a listing of Pierce County ARES information, news items, and links to Amateur Radio websites. The address is www.piercecountyares.net

This completes the Pierce County Amateur Radio Emergency Service Net. I want to thank the repeater owners for the use of their systems and everyone who participated. The repeaters are now for regular traffic. This is Net Control Station [your call sign and location] closing the net at XXXX hrs. local time. [your call sign] clear.
